Preglednica vozil glede na velikost pokrival je zgolj informativne narave.

NAVODILA IN OPOZORILA SO NAPISANA NA HRBTNI STRANI

# POKRIVALO PROTI TOČI

---

Debela penasta tkanina ščiti vozilo pred točo in podobnim (veje, kostanj, oreh,...) ter nečistočo

- Odpornost pred vremenskimi vplivom in UV sevanju
- Pokrivalo ne poškoduje avtomobilskega laka, če se upošteva navodila in opozorila
- Pritrditev s pomočjo trakov spredaj in zadaj, omogočajo boljšo pritrditev tudi v močnem vetru
- Vodoodbojno
- Zračno zaradi stranskih zračnih odprtín

## Navodila za pritrditev:

Zaščitno pokrivalo položite na zadnji del vozila - prtljažni prostor, ter pritrdite elastični konec pod zadnji odbijač. Pokrivalo povlecite - razprostite čez streho vozila in prednji del - pokrov motorja, ter prednji elastični konec pritrdite pod sprednji odbijač. Pokrivalo lahko na vozilu dodatno zavarujete s pomočjo pritrdilnih elastič (niso sestavni del paketa). Pokrivalo pritrdite na vozilo s pomočjo obeh trakov.

## Čiščenje:

Pokrivalo lahko čistite z mlačno vodo s pomočjo krtače ali gobe. Preden shranite pokrivalo v zaščitno torbo, ga je potrebno posušiti. Za čiščenje ne uporabljajte čistilnih sredstev ali šamponov.

## Opozorila:

- Z vozila očistite umazanijo in prah, sicer lahko le-ta ob premikanju pokrivala zaradi vetra pusti sledi na vozilu.
- Vedno pazite na napetost in čvrsto pritrditev pokrivala, sicer lahko pri močnem vetru pride do poškodb na pokrivalu in vozilu zaradi nenadzorovanega premikanja in udarcev pokrivala.
- Pokrivala ne uporabljajte na novo lakiranih vozilih. Če je na vozilu pritrjeno pokrivalo, ne polagajte na avto predmetov, saj bi tako preprečili cirkulacijo zraka. Pokrivalo nameščajte samo na suho vozilo.
- **Pokrivalo uporabljajte samo na suhem in čistem vozilu!**
- **Pokrivala ne smete sušiti na vozilu, temveč ga sušite razobešenega. Če se pokrivalo posuši na vozilu, lahko pusti sledi na laku vozila.**
- Vozilo, pokrito z zaščitnim pokrivalom, ne sme stati na javnih prometnih površinah, saj pokrivalo prekriva svetlobo in odbojna telesa ter registersko tablico osebnega vozila.
- Ne pokrivajte konca izpuha. Zaradi ekstremne vročine se pokrivalo lahko poškoduje - stopi.
- Pokrivalo, ki je posušeno in shranjeno (v zaščitni torbi), ne izpostavlajte dolgotrajni vročini ali vlagi.

Ob upoštevanju teh napotkov oziroma navodil, bo pokrivalo izpolnilo svoj namen in vaše vozilo ustrezno zaščitilo.

Zaščitni učinek proti posledicam toče je omejen.

V primeru velike toče vam svetujemo, da avto garažirate.
